

**Environmental Consultants, Engineers, Designers Turnkey Project Executors
with Environmental Pollutant Monitoring and Testing, Energy Auditors**

About us

Thought of founding the firm came in 2011 and established in 2014 with associates and technocrats of Environmental Engineering field. The sustainable growth with environmental improvement is the key factor considered for the services to preserve the environment. ensafe has dedicated team of Environmental specialists and scientists to guide & direct the clients to improve the environment.

ensafe is committed to continuous enhancement in our services through Technological upgradation, Stringent Monitoring, norms & process control through team work and review of Quality, Health & safety concerning sustainable environment

Vision

To become a leading group of Environmental, Energy, Engineering Consultants and Turnkey projects executors with global footprint by 2022.

Mission

To become well known Environmental and Energy consultants domestically by 2019.

To become Environmental Turnkey project executors & Exporters with global footprint to join sustainable development worldwide by 2019.

To become leading Environmental, Energy and Engineering consultants by 2022.

Core Competence:

- Environmental Techno-legal advisory and compliance services like NOC/CTE, CCA/CTO from GPCB, RSPCB, SPCB, CPCB and EIA, EC, Forest Clearance, Rapid EIA from MoEFCC
- Water & Wastewater treatment plant (ETP,STP,ZLD & WTP) Turnkey Projects design & Execution
- Environmental Audit & Monitoring of Water, Wastewater, Air, Noise, Soil
- Environmental Laboratory Services
- Wastewater treatment plant (ETP,STP,ZLD & WTP) preventive and comprehensive Operation & Maintenance Services
- Energy Audit and resource efficiency measures

ensafe Environmental Consultancy

Environmental Consultants, Engineers, Designers Turnkey Project Executors with Environmental Pollutant Monitoring and Testing, Energy Auditors

Brief Overview of Services

The company is navigated by highly motivated, committed, technically sound and in-house as well as outside technocrats with access of highly equipped advanced laboratory, technologies, equipments with latest knowledge of global technologies to give one stop client and environment friendly solutions obtained through conferences and learning & development programs supported by industry experts.

Techno-Legal advisory

- Obtaining NOC/CTE and CCA/CTO from GPCB, RSPCB, SPCB
- Environmental Clearance from MoEF&CC
- Environmental Impact Assessment (EIA) study & Rapid EIA
- Environmental compliances guidance
- Environmental Audit

Environmental Laboratory

- Water, waste water, soil & sediment samples for physical, chemical, Biological & Micro-biological Parameters
- Ambient air Quality Analysis
- Stack and other source level Analysis

Environmental Monitoring

- Water, Ground water, Waste water, Soil
- Ambient air Quality Monitoring
- Stack and other source level Monitoring
- Noise Level Monitoring
- Meteorological Monitoring

"Thousands have lived without love, not one without water."

Turnkey Solutions

We take on Design, construction, supply, erection, testing & commissioning of Environmental Engineering projects on Turnkey basis for Municipal Corporations, Industries, Individuals, Associates, Special Economic Zones (SEZs) & Residential Colonies as well as Global Export market.

We provide Turnkey solutions for the projects like:

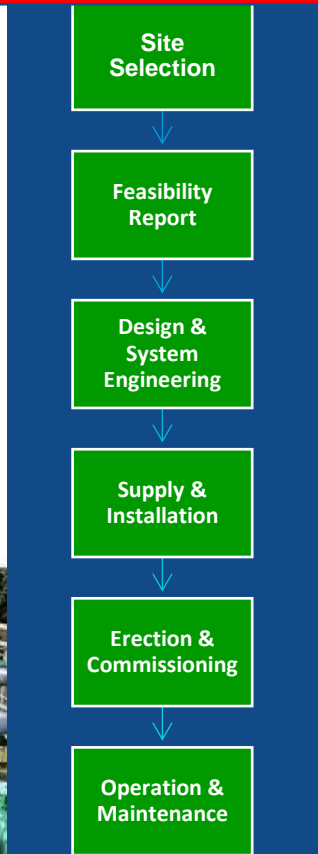

- Water Treatment Plants
- Industrial Effluent Treatment Plants (ETP) Both Packaged & Modular skid Mounted
- Zero Liquid Discharge (ZLD) Systems
- Domestic and Commercial Effluent Treatment Plants
- Sewage Treatment Plant (STP) Both Packaged & Modular skid Mounted

Operation & Maintenance Services

- ensafe is having a designated task force of Environment engineers, experienced mechanical & electrical engineers, well equipped with required infrastructure facilities which are responsible for executing the Operation & Maintenance of WTP/STP/ETP.
- ensafe undertakes multi-year contracts for O&M including supply of consumables, chemicals, & manpower in our scope, simultaneously ensuring the performance efficiency to obtain the results as per State Pollution Control Board norms.

TURNKEY PROJECTS

Energy Audit

- ensafe undertakes the Energy and Resource efficiency study.
- We do Energy Audit for the companies consuming energy beyond threshold limit defined by BEE
- ensafe also planning to undertake solar power projects in future
